PROJECTS: CONSTRUCTION

ARIKSON General Contracts and Company Limited has been engaged as subcontractor to Shell Petroleum Development Company (SPDC), Niger Delta Development Commission (NDDC), Ideke Shipping Limited, Julius Berger Nigeria Plc, Techint-Cinimontubi Nig. Limited, Daewoo Nigeria Limited, TSKJ Nig. Limited, (on the NLNG Project Bonny from 1996-1999). We have been carrying out business in Civil Engineering works for the past 12 years around the Niger-Delta and also East and West SPDC region of Nigeria.

PROJECTS: ENGINEERING

(CIVIL/STRUCTURAL, ELECTRICAL AND MECHANICAL)

ARIKSON General Contracts and Company Limited has been engaged in Foundation Piling jobs for the past thirteen years. It has different types of piling/foundations equipment like Junttan Pile Driving Rig Pm15 with Hammer ram weight of 4500kg, ICE Hydraulic Vibratory Hammer (3117) with power pack (ICE-500), Delmag Diesel Hammer, (D35, D22, DI 5 &DI 2) with different types of pile clamps for concrete sheet piles, Casing piles and steel sheet piles. It also has three 45 tons cranes with standard leader (foreign) and experienced piling crews. So far, with ARIKSON General Contracts & Company Ltd, we have been engaged in series of Designs and Constructions of Jetty, Bridges and Dredging within the Niger-Delta region.

PROJECTS: JETTY CONSTRUCTION

ARIKSON General Contracts and Company Limited has been on Jetty Construction for over a decade and we have been executing jobs of about 500 to 5000 Ton Jetties. We also construct our Jetties with modern Equipment like ICE Hydraulic Vibratory Hammers (Non-disturbing piling) and inbuilt 40 to 60 ton piling rig. We prepare jetty with Steel sheet Pile or Reinforced Concrete sheet piles, and we also source for our materials locally and abroad. For example, we fabricate or pre-cast our concrete sheet piles in-house because we have standard molds. In the case of steel sheet pile, we source the materials within or alternatively we collaborate with our foreign partners in Germany, who will send it to us in less than a month.

PROJECTS: BRIDGE CONSTRUCTION

We undertake the construction of bridges by carrying out subsoil investigation, soil test and design to enable us determine the depth that we can drive our piles to, the strength of concrete that we will be casting/pre-casting and the tonnage of the bridge. We also pre-cast our concrete that will lay across each beam and we have standard equipment to carry out bridge jobs like cranes, 12 to 35 Delmag diesel hammers, concrete mixers. We also have moulds for the pre-cast units that will lay between each beam. We have competent engineers, good workforce and standard iron workers that can carry out iron works on the re-enforcement of our concrete and goodsurveyours that will ascertain proper alignment. We have also undertaken bridge jobs in and around the Niger-delta region.

PROJECTS: DREDGING

ARIKSON General Contracts and Company Limited as a dredging company with more than nine years in swamp, sand stock piling and reclamation dredging works within the Niger-Delta. The company has also been doing dredging jobs for Daewoo Nigeria Limited in their SPDC jobs like sweeping, stock piling and reclamation. Our dredger is completely overhauled and ready for work. It is a cutter suction dredger with dimension: 25.45 x 7.64 x 2.45m, Type: Dismountable, road transportable, Build: 1982 in Holland.

Classification: National main sea rivers, Dredge pump : Bagema 45/40 GG, impeller diameter. 1100mm driven caterpillar D399, 11400 hp/1225 rpm gear, output 200hp/1800rpm, cutlass bearing. Dredging depth: Max. 13m, Suction/discharge:

500/450mm, Spud: 1 basculating spud, 1 fixed spud, Water jet pump: type wire driven by Deutz BA8M 816 LLKU, Output 512 hp/i 800 rpm and with

Generator Tank: fuel in each side pontoon 10m³, Accommodation: Kitchen unit, boiler, hydro pumps for effective production.

Mobilization of Ellicott Dredger on a low bed truck to a proposed work site
